

ÖNSÖZ

ASASKA, 1994 yılında havalı fren parçalarının Almanya'ya ihracatı ile çalışma hayatına başlamıştır. İlk yıllarında Avrupa ülkelerine ihracat yapan ve bu sayede sektörün kaliteli ürün isteklerini yakından takip edebilen firmamız bu deneyimini iç pazara da aktarmıştır.

ASASKA olarak ana faaliyet konumuz çekici ile dorse arasındaki hava ve elektrik bağlantılarıdır. Kendi imalatımız olan TIR hava hortumları ve TIR elektrik kabloları tüm Avrupa ülkelerine, bazı Afrika ve Uzak Doğu ülkelerine ihraç edilmektedir. Yıllar içerisinde müşterilerimizden gelen talepler doğrultusunda sektörün öncü OE tedarikçilerinden olan Erich Jaeger (Almanya) firmasından ISO standartlarına ve DIN normlarına uygun elektrik konnektörlerini ve kablolarını, Vignal (Fransa) firmasından orjinal lambaları, BICMA (İtalya) firmasından “E” onaylı reflektörleri ve ADR normlarına uygun levhaları, Esdan (Avustralya) firmasından DIN normlarına uygun hava hortumlarını, WAS (Polonya) firmasından “E” onaylı Led lambalarını, ECCO (İngiltere) firmasından ikaz lambaları ve geri vites düdüklerini iç pazara sunmuştur.

ASASKA olarak hedefimiz, yurt içinde ve yurt dışında, tüm müşterilerimizin ürünlerimize duyduğu güveni korumak, kalite anlayışımızdan ödün vermeden ihtiyaç ve beklentilerini en üst seviyede karşılayarak, konusunda öncü ve lider olmaktır.

FOREWORD

ASASKA was founded in 1994 with exporting air brake components to Germany. After extending to European markets with highly competitive product range, ASASKA was able to meet demands for quality products and also carried this experience to domestic market.

As ASASKA our main activity is air and electrical connections between truck and trailer. Our TIR air coils and TIR electrical cables, which are being manufactured in our own facilities are being exported to almost all European countries, some African and Far East countries. With increasing demand from domestic market, ASASKA started importing top notch products from reputable manufacturers worldwide, electrical connectors and cables with ISO standards and DIN norms from Erich Jaeger (Germany), original lamps from Vignal (France), reflectors with “E” norm and ADR signs acc. to the norms from Bicma (Italy), air brake hoses with DIN norms from Esdan Plastics (Australia) and trailer led lights/lamps with “E” norm from WAS (Poland), beacons and reversing alarms from ECCO (UK).

ASASKA's main target is to maintain the confidence of all customers in global market for the products that we offer, be pioneer and leader in heavy commercial vehicle sector without sacrificing high quality standards and meet expectations and requirements in highest possible level.
